

Commodity Credit Corporation, USDA

§ 1464.7

§ 1464.5 Interest rate and general provisions.

The loans made to the associations will bear interest at the rate announced by CCC and will be non-recourse both as to principal and interest except in the case of misrepresentation, fraud or failure to carry out the loan agreement. Tobacco loses its identity as to original ownership through commingling in the packing process, and individual producers may not redeem their tobacco once it has been pledged as security for the loan. Associations will sell the loan tobacco as provided in the loan agreements for each crop, and the net proceeds of sales of the loan collateral of each crop will be applied to the loan account for such crop until the loan is repaid in full. With respect to the 1981 and prior crops, if the proceeds from the sale of loan collateral of the 1981 or any prior crop exceed (a) the amount of the loan plus all fees, handling charges, operating costs and interest; and (b) any amount due CCC under a barter transfer agreement entered into between CCC and the association, such excess shall constitute "net gains" and shall be distributed in cash by the association to the producers who placed the tobacco under loan unless other disposition is approved by CCC.
